Forecast for Wednesday 22 Jun 2022

Weather: Dry with patchy mist and fog at first, more especially in the east. This will lift into low cloud and clear soon to leave another fine and warm day with long spells of strong sunshine.

Chance of cloud-free hill tops above 800m: 40% around dawn otherwise 100%.

Low Cloud and visibility: Shallow banks of low cloud will cover some slopes above 200-300m at first as mist and fog lifts, otherwise any cloud will remain clear of the summits. Visibility locally poor in mist and fog at first, otherwise excellent visibility at all levels.

Freezing Level*	2800m	2800m	2700m	2700m	2700m	2700m	2700m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels will be very high in the sunshine and good sun protection is recommended.

Forecast for Thursday 23 Jun 2022

Weather: Dry with clear spells during the early hours, with some shallow valley fog for a time around dawn. Dry with sunny spells at first Thursday morning but cloud will build late morning onwards, with showers developing during the afternoon. Showers could turn locally heavy and possibly thundery by evening, and will continue in places after dark.

Maximum wind: Southwesterly 10-15mph with isolated gusts 25mph near showers.

Chance of cloud-free hill tops above 800m: 100%.

Low Cloud and visibility: Cloud will remain clear of the summits throughout the day with generally excellent visibility. However locally very poor in valley fog around dawn, and temporary deteriorations to moderate or poor are possible in showers and any thunderstorms during the afternoon and evening.

Temperature: **Valleys:** Plus 10 Celsius rising to plus 22 Celsius.
At 800m: Plus 13 Celsius.
Freezing level: Above the summits.
